HERD ON THE CURB

"What they need up Cottonwood is just such a big merger as is rumored. That would mean no paralleling and useless work," says Mr. Mendenhall. "I pick would be for the development of Grand June and inter. points. I think under such a campaign you would see some of the biggest mines in the country."

"I'm looking for one or two new shippers to be added to the list at Fork before snow flies in the valley,

and that's what is needed to help round out the mining industry of the

But they'll have to get a move on them, as Jack Frost's "whalers" have already swept the summits of the Wasatch."

"I heard they had cut some fine quartz in the Tom Moore tunnel at Bingham."

"Think of their calling water oozing into the Iron Blossom nearly 2,000 feet into the bowels of the earth 'surface water.'"

"The other day I was over in the Francisco district in Beaver and chanced to look down some of the holes on the Cupric property. It seemed to me the holes are in every one, and all the way down too."

"The Jennie is down near Gold Springs is still keeping up her lick, although that is a rather quiet sort of a place this fall."

state.

"Why this quietus which has settled about the skirts of Ophogone these days?"

"I pick Pioche for the coming greatest lead-silver camp in the Rockies."

"I've bought Prince Con. for \$1.85, high water mark, and sold it at 52, low water mark. Although it has not been enough, or in sight now to make stock worth \$5 or \$3, I'll never see \$2 again, and mark my tip."

"The showing on Hilder-Nevada is the biggest surface copper deposit I ever saw. The surface holes have been put down in various places, and every one which went under the Jasper capping shows ore from 2 per cent up."

"Nothin' doin' out our way now, but just let silver go to 70 and then sell

"They say lots of good ore is being gotten out of Baby McKee, Maxfield and Cardiff."

* * *

"Those copper concentrates from South Utah in Child's window are about the clear stuff."

* * *

"Assessment is being done on the Imperial in Beaver. The Blackbird is also looking up."

* * *

"It seems a long time coming, but present activity in the Sierra Madre district north of here should some day bring both fame and prosperity to that much abused camp."

* * *

"If we had just one or two more Scrantons, Utah would have a zinc mill,
